

## 5 REASONS TO BUY YOUR EYEWEAR AT VIEWPOINTE VISION

Are you 20/Happy? At ViewPointe Vision we are committed to providing the highest quality eye care available today. This includes providing a worry free experience when it comes to purchasing your eyewear. Below are just a few of the perks offered when purchasing your eyewear through us. Take a look and see for yourself!

### 2 year warranty

At VPV almost all of our products are warranted for 2 full years. Lenses scratched? Frames Broken? Don't worry. We've got your back! Most other practices offer 1 year coverage on "manufacturer defects" and online retailers are notoriously worse yet when it comes to replacing products. In other words, if your dog decides to use them as a chew toy, or your kiddo demolishes them, we've got you covered!

### Free prescription rechecks

For those of you who have kids, you know how quickly they can outgrow their shoes and clothes. Unfortunately, their vision can sometimes change quickly too! If any of our patients have problems seeing with their new glasses, our staff will do everything possible to make it right. That includes re-making the Rx if need be not for only 30 days or 90 days like most competitors, but for a full 6 MONTHS!!

### Free tune-up

Have your glasses seen better days? When you purchase eyewear through us you can stop in anytime for a tune up - including frame adjustment, new nose pads, and ultrasonic cleaning that deep-cleans grooves and crevices of your eyewear that are hard to get to. Oh, and when your bottle of lens cleaner is empty, stop by for a free refill and new lens cloth!

### Customize

Do you work on multiple computer screens? How much do you use your smartphone and other handheld devices each day? What outdoor activities do you enjoy and how much sun exposure do you get? Your answers are no doubt unique. Our doctors and staff go beyond just giving you a copy of your Rx. We CUSTOMIZE your eyewear for your life.

### Insurance benefits

Did you know that our billing and insurance specialists begin researching your benefits the moment after you schedule your exam with us? Each week we find benefits to help cover eyewear that our patients didn't even know they had! For guests who have no insurance benefits we also provide an in house "VPV Plan" which is a free vision plan for small businesses. Ask about it today!
